

## **2008 National Worker Cooperative Conference**

Presentation Outline for:

“The New Argentinean Cooperative Movement and the Effort to Fund it”  
by Brendan Martin

2:45 - 3:25 (40 minutes) Presentation

15 minutes - Post-millennial Argentina Coop Movement

15 minutes - The Working World Loan Fund Experience

10 minutes - Implications

3:25 - 4:05 (40 minutes) Discussion and/or Q&A

This depends a lot on the level of experience and expertise of the audience.

If it's very high, I would like to direct a discussion towards reflecting on the implications the Argentine and Working World experiences have for cooperatives and movement in the world, and for creating connections internationally. Hearing people with rich cooperative experiences reflect on the presentation I made would be highly valuable.

If people mostly feel more new to the concepts and not prepared to chime in, I will direct this more as a Q & A where they can followup parts of the presentation.

If the crowd is mixed, I will attempt both, twenty minutes to allow the more curious to ask questions, and then 20 minutes for the more experienced to give some of their reflections.

4:05 - 4:15 Slide show of the Factories in Argentina
